Seniors Not Registering for a Math Course

I have been advised that the Montana University System has math proficiency standards that require a C or better in 4 years of high school math (or a 22 ACT Math Score). I am waiving the recommendations of the CHS counseling and math departments to sign up for the next sequential math course in the college-prep curriculum. I have been informed that all remedial math classes at the 2 and 4 year colleges will be for no credit and at the full tuition rate. Final math class placement will be determined after 2nd semester grades are finalized.
